

January 22, 2021

Dear Haaland Estates Residents, Families and Employees,

We completed our 33rd sentinel COVID test on Tuesday January 19th. We had no positive results. Our next scheduled test date is Tuesday morning January 26th. We will continue to test as directed by the ND Department of Health. This will continue even after we receive our vaccine.

We are scheduled to administer the 2nd dose of vaccine on Wednesday morning January 27th starting at 9:00 am in Basic Care. Nursing staff will go to the Basic Care resident's rooms and then the Assisted Living tenant apartments to administer the vaccine.

We will continue with the current procedures for wearing masks, 6 foot social distancing and hand hygiene.

Thank you,

Kelly Clements, RN
Director of Nursing
