

December 28, 2020

Dear Haaland Estates Residents, Families, and Employees,

We completed our 30th sentinel Covid testing this morning. We will continue to test as directed by the ND Department of Health. This will continue even after we receive our vaccine.

We are scheduled to administer the vaccine on Wednesday, December 30th starting at 9:00AM in Basic Care. Nursing staff will go to the Basic Care resident rooms and then to Assisted Living tenant apartments to administer the vaccine. Employees will go to the nursing department to receive their vaccine. We hope to have this completed by noon.

The Covid vaccine is a two dose series. The second dose will be administered on Wednesday, January 27th.

We are looking forward to the new year and the hope it brings for an end to this pandemic.

Thank you,

Kelly Clements, RN
Director of Nursing
